## OFFICE 2007 BACKWARDS COMPATIBILITY ISSUE

Sending an Office 2007 document to anyone with an earlier version of Microsoft Office requires that the item be “Save as type” by choosing “Word 97-2003”. This issue may also be resolved by installing the patch offered through the Microsoft website at [Microsoft.com/downloads](http://Microsoft.com/downloads) under Microsoft Office Compatibility Pack for Word, Excel, and PowerPoint 2007 File Formats.
